Become a Member of *Fourth Branch of America* (FBA)

The Fourth Branch of America, LLC is looking for Republicans, Democrats, Independents, Conservatives, Liberals, or those people completely unaffiliated with any party, to join our ranks as members. We believe that it is necessary to remind the American people and our governmental representatives that our country is stronger when our citizens are kept informed regarding the issues and legislative agenda. We all benefit from sharing in the dialog, and being kept aware of current affairs in our government that do affect us, regardless of any party or personal ideology. It allows us to be educated, informed constituents in this country, our country, so that we may make better choices, not only at election time, but every day.

The FBA collects membership dues annually. This money is used to support our infrastructure, gather and publish information using various media and forums, and allow us to grow. Due to IRS regulations, we are NOT a non-profit organization, and membership dues or other donations and support are not tax deductible. However, if you believe that the Fourth Branch of America and *The Informed Constituent* are valuable to our community, we urge you to support us however you feel best. The profit of the company is reinvested in helping our community prosper.
